BENJAMIN J. ROBINSON

320 K Street NE, Apt A, Washington, DC 20002
(513) 236-9416 • benj.robinson2@gmail.com

SKILLSET

- Inquisitive data professional passionate about driving data-informed decision-making with expertise in statistical programming, analysis, visualization, modeling, and storytelling using data.
- Experienced in R (for data cleaning, manipulating, visualizing, and building web-based applications) and SQL (for creating architecture to store data and automate processes to improve the quality and efficiency of data projects while building out team infrastructure).
- Collaborative with internal and external stakeholders to craft compelling data tools and products that meet user needs, promote operational efficiency, and provide value to an organization's operations and bottom-line.

EXPERIENCE

Universal Service Administrative Company (USAC) **Washington, D.C.**

Senior Data Associate – Data Strategy & Insights (*Enterprise Portfolio Management Office*) May 2019 – Present

Data Associate – Data Strategy & Insights (*Enterprise Portfolio Management Office*) May 2017 – May 2019

- Led the development of an enterprise-wide DATA Community of Practice by bringing together employees to share ideas and showcase best practices in service of improving USAC's data competency, use, and overall culture.
- Shepherd the implementation of RStudio Connect, Tableau Server, and an Enterprise Data Warehouse by developing trainings, managing stakeholder relationships, and creating technical guides to help deliver these projects to users.
- Manage the development and curation of a series of internal Tableau dashboards focused on presenting operational metrics to inform executives, managers, and stakeholders about the status of mission-critical business processes.
- Work to improve the efficiency of USAC's operations, the integrity of the Universal Service Fund, and user experience of our stakeholders through the clear communication of insights gleaned from high quality data analytics.
- Interface with division Vice Presidents to produce executive dashboards and data products that inform leadership teams with a deeper understanding of their business processes and progress toward strategic goals.
- Develop data tools to showcase the value of the USAC's Open Data Platform, automate processes, and provide detailed information to management on operational outcomes through the development of an internal R package.

District of Columbia Office of the State Superintendent of Education (OSSE) **Washington, D.C.**

Data Analyst – Division of Data, Accountability & Research August 2014 – May 2017

- Conducted extensive data analyses to evaluate postsecondary education policies and programs, working with multiple stakeholders to provide valuable data-informed conclusions for public and internal use.
- Managed the Extract, Transform, and Load process for reporting aggregate data on D.C. schools using custom-designed R and SQL scripts for LearnDC.org, the agency's education data portal.
- Performed data requests and ad hoc analysis to inform administration of agency initiatives, policies, and programs with specific expertise on college and career readiness and success.

EDUCATION

University of Southern California, Sol Price School of Public Policy **Los Angeles, CA**

Master of Public Policy (M.P.P.) August 2012 – May 2014

University of Pittsburgh, Kenneth P. Dietrich School of Arts & Sciences **Pittsburgh, PA**

Bachelor of Arts (B.A.), Economics (Honors) & Urban Studies; Magna Cum Laude August 2008 – April 2012
